Re: Council Housekeeping Report

1. The Warwick and Arlington Water Main Replacement Project is nearly wrapped up. All the water mains are connected and all the houses are now in service from the new line. The contractor still needs to replace sidewalks, a few street sections, and restoration of the work area. Those projects will continue to be weather dependent.
2. The contractor for the Emergency Repair on Leet Street is making the last water main connections at Leet and Cleophus and also at Leet and Southfield. The contractor will still need to replace sidewalks, street sections, and restoration of the work area – which will continue to be weather dependent.
3. In preparation for the 2017 Street Improvement Millage construction, the Water Department has camera scoped various lines on Horger Street, while the DPS has removed trees that would be directly in the work area.
4. The Ordinance Officers are working on the Parking and Storage of Recreational Vehicles.
5. The Finance Department has distributed the budget documents to the Department Heads for the 2017-18 Budget Year that will begin on July 1st.

6. The DDA Director informed the City that Allen Park has been selected to participate in the Detroit Institute of Arts “Inside-Out” program. A number of famous artworks will be displayed in various areas of the DDA from August 1st through the end of October.
7. The I-75 construction project is set to begin on February 4th and last for about two years. The Michigan Department of Transportation (MDOT) has scheduled an informational meeting from 5:00 to 7:00 PM January 26th at the Woodhaven Community Center, 23101 Hall Road.
