

April 12, 2020

We lost another resident on Easter Sunday to COVID-19. Our latest deceased was a 76 year old male. Please keep his family and friends in your thoughts and prayers.

As of April 12, Allen Park had a total of 120 confirmed cases and 10 deaths.

In addition to the Wayne County report, I am posting sheets showing how cities in this report compare in number of confirmed cases and deaths. The State has begun to provide recovery data, which they update every Saturday. Numbers are based on persons alive 30 days post-onset or referral date. As of 4/10/20, they are reporting 433 as recovered representing confirmed individuals with an onset date on or prior to March 11, 2020.
